GUIDELINES FOR ROUND 2 CSS CHALLENGE

GENERAL INSTRUCTIONS

- Questions are Uploaded in a folder, and the teams are allowed to choose one. **ATTEMPT ONLY ONE OF IT** since only one will be considered.
- Submit the repo link in the form after making the repo public. **ONLY COMMITS BEFORE DEADLINE WILL BE CONSIDERED.**

TASK SPECIFIC INSTRUCTIONS

- In the repo, name your file as following **TeamName_Qno.html** and submit the code in it. Ensure that when this code is run, the output should match what is asked in the task.

- The teams are given each 2 tasks to complete. They are required to follow the given prompt and try their creative approach to a prompt.
- Do read the prompt properly, if you have any doubts regarding the task and differences in interpretation, you can clarify it before starting.
- Scoring for the tasks is done as follows :
  Task 1 - 60 points
  Task 2 - 90 points
- Scoring for the tasks is done based on the following criteria :
  - How close the GIF is to the prompt given in the task
  - Creativity and the styling done.
- Refrain from using AI solutions to solve the problem. You are free to use the internet as a resource, but copying the entire code will result in disqualification. We have added resources needed for the tasks, they might be helpful too (Under the tasks).
